# DAILY STATE SENTINEL.

WILLIAM J. BROWN, Editor.

INDIANAPOLIS:

WEDNESDAY MORNING, AUGUST 25, 1892.

"No North, no South, no East, no West under the Constitution; but a sacred maintenance of the common bond and true devotion to the common brotherhood."—Franklin Pierce.

The Journal of yesterday has another long article on its favorite hobby, "protection." The editor fully proves our assertion that it is a question between the Eastern manufacturer and the Western farmer. He advocates the doctrine of protection to money. We are for sustaining labor, which is the real wealth of the country. Here is the issue. Those who desire to make the Western farmer dependent on the Eastern manufacturer for the sale of every pound of flour, pork, and beef, which he produces, ought to vote for Gen. Scott and the whole Whig ticket. Time and experience are the only schools in which such people will learn. Let them go.

If Mr. Pierce is the great man the Democratic papers now pretend, why did he not show some of his greatness during the ten years he served in Congress?—Ind. Journal.

He showed his greatness in Congress by voting against two Whig bills to charter National banks, against a corrupt land distribution system, and a swindling Whig bankrupt law. Gen. Scott showed his greatness by approving all these measures. The people can and will determine on this issue which kind of greatness they like best.

## Wayne County.

The following is the Democratic ticket for Wayne county:

Senator—Wm. Baker.  
Representatives—H. J. Shombro, W. R. Tomlinson, Jacob Brooks.  
Sheriff—Eliaser Malone.  
Treasurer—Daniel Culbertson.  
Judge Court Common Pleas—Thomas Means.

Where is the Whig Committee to "fetch" out a Whig candidate for Congress? Has our good natured friend Sims Colly, the Chairman, failed to call them to gether. Something must be done for our neighbor Bradley. See his article in the Journal of yesterday. Either trot him out, or give him a vial of Falstaff's vermifuge.

## Iowa.

The Burlington, Iowa, State Gazette of the 18th inst., says:

"Full election returns have not yet come to hand; the House, however, will be largely Democratic—the Senate more evenly divided; our State ticket is carried by, probably, somewhere near two thousand."

Do you HEAR that, brother Deftrees?

Judges and Prosecutors Attorneys for the Court of Common Pleas.

The law providing for the election of these officers will be distributed in the counties before the election. There is to be a Judge and Prosecutor elected in each district.

## Democratic Meeting.

The Democrats of Warren township will hold a meeting at the school house, near the residence of John Springer, on Saturday, August 28th. Albert G. Porter, Esq., will address the Hickory Club, and the Indianapolis Glee Club will be on hand.

The Whigs are greatly rejoiced that they have gained a member of Congress in Iowa, but they forget that they have lost one in Missouri, leaving the delegations of the two States precisely as they are in the present Congress.

Messrs. Sims Colly, W. Hanneman, and W. W. Wright are the Whig committee to bring out a candidate for Congress in this district. When will they report? "Our neighbor" John H. Bradley is waiting patiently.

Deftrees can't hear from Iowa. We advise him to go to Roberts' Drug Store and get a bottle of Acoustic Oil. A few drops will improve his hearing. It has produced wonderful cures.

[From the Journal of Commerce.]

WASHINGTON, Tuesday, Aug. 17.

The President has, no doubt, received from the King of the Sandwich Islands some proposition in relation to the transfer of the sovereignty of those islands to the United States. We have had such information, both from public and private sources. The California Senators assert the fact distinctly. On the 12th of June the President declined the request of the Senate in Executive Session to furnish information on this subject, on the ground that it was not, at present, compatible with the public interests. Today, he has repeated the same answer to a similar request. It is evident, therefore, that the subject is, in some form, before the Executive Government. Mr. Seward has anticipated its action, however, by a proposition that the President send a commission to the Sandwich Islands, to inquire into the expediency of acquiring dominion over them. This commission could report at the next session. Probably the subject will, at all events, be pressed upon Congress at the next session.

The aboriginal population of the islands is rapidly diminishing, and, in its place, arises a heterogeneous mass of all tongues and nations. The present authorities cannot long retain dominion there, and the islands may fall into the hands of some foreign naval power, unless the United States government acquire peaceful possession of it now.

There may be reasons connected with negotiations now on foot with foreign governments, in regard to this proposed acquisition by the United States government, which render it indiscreet for the President to show his hand.

It is quite evident, after the proceedings of the day, that the Homestead bill and Bennett's land bill are not to pass the Senate this session.

The Civil and Diplomatic bill will be brought before the Senate to-morrow. The River and Harbor bill will come up next, and it is thought that it will pass.

Mr. Scott is yet to be heard on the Fishery question, in reply to Mr. Seward's proposition. The House has passed a bill granting 750,000 acres of land in aid of the construction of a ship canal around the Falls of St. Mary. They would not grant the money for the object.

## Still They Come.

Gov. Robert Lucas, formerly of Ohio, and for many years of Iowa, has come out for Scott and Graham. No one in Iowa will dispute Lucas's Democracy. And there are hundreds of Democrats in Iowa who have come out in the same way.—Cincinnati Gazette.

Will the Gazette have the kindness to advise us at what time, and on what occasion, for the last eight years, Gov. Lucas has had any associations with, or labored for, any thing else than Whiggery?—Cin. Eng.

## The Gardiner Case.

It is stated that the President lately directed suit to be instituted against Dr. Gardiner, for the purpose of obtaining an injunction against the payment to him of the money which he has on deposit in New York and Washington. This, however, it is proper to state, does not cover the \$200,000 in the hands of Mr. Corwin, of the Treasury.—Cin. Eng.

The following communication is from one of the best informed Democrats of Wayne county. He thinks we have over-estimated the Whig strength, and calculated too large on the Democratic defection in consequence of Mr. Julian's nominations. We hope, and believe he is correct. We made our estimate on Whig information, allowing one half for "tare."

[For the Daily Indiana State Sentinel.]

The Free Soil Nominations—their Effect upon the Democratic Vote of Wayne and Henry Counties.

Mr. Editor:—In your paper of the 19th inst., I notice an article on the nominees of the Free-Soil National Convention, their former political positions, and their probable effect upon the Democratic vote. This article contains some remarks, in regard to the effect the nomination of Mr. Julian, as a candidate for Vice President, will have upon the Democratic vote, in the counties of Wayne and Henry, which are calculated to make a wrong impression. You say, in relation to the nomination of Julian:

"Out of his old District his nomination will not affect a single vote. In the counties of Wayne and Henry, he will take from the Democratic party, a few hundred votes and his nomination will be the means of increasing the Whig majorities in these counties."

Now, Mr. Editor, I beg leave to say that your calculations of the effect of Mr. Julian's nomination upon the Democratic vote in the counties of Wayne and Henry, are entirely erroneous, as the vote in November next, will prove to your satisfaction. I have taken a pretty active part in politics in this District for thirteen years past, and I profess to be tolerably well posted up in regard to the position of parties, in the counties referred to; and I assure you the nomination of Mr. Julian, will not affect five Democratic votes. Wayne and Henry, will give larger Democratic votes by several hundreds, and smaller Whig majorities, than at any previous election.

The Democrats in those counties, and throughout the District, are thoroughly united and actively and zealously engaged in support of the Democratic National and State nominations. In no part of the State, I venture to say, are the Democrats manifesting more zeal and laboring to better purpose, for the Democratic cause and candidates than in the two counties named by you, and in no other two counties will there be a greater accession to the Democratic ranks, in proportion to the vote I know of no man who has been in the habit of voting the Democratic ticket who will not do so at the approaching elections. I know of many who have heretofore voted the Whig ticket who will now vote with the Democracy. A number of Democrats, in both Wayne and Henry, who voted with the free-soil party, in 1848, are now for Pierce and King. Some Whigs who joined the free-soilers the same year are now for Scott. But the changes from the free-soilers to either the Democratic or Whig parties will not affect the relative strength of either party in this District, according to present appearances. The only accessions to the free-soil party, since the nomination of Hale and Julian, that I have heard of, are from the Whig party.

It is true that the District, under the free-soil ticket, voted for Mr. Julian for Congress, in 1849 and 1851, not because they endorsed his principles, but because they were a hopeless minority, and because Mr. Parker was peculiarly obnoxious to them, as he had always been the bitter reviler of Democratic men and measures. Besides, in voting for Julian they gained an advantage in local elections and were enabled to place Democrats in the important county offices, the patronage which had been unscrupulously used by the Whigs in electing against the Democrats. In addition to these inducements, there was no difference in 1849, according to the professions of Messrs. Julian and Parker, in their views on the slavery question, except that Parker claimed to be a better and older abolitionist than Julian. Last year he suddenly became alarmed for the safety of the Union, denounced agitation and repudiated his abolitionism. The Democrats regarded his change, in this respect, as due to Gen. Scott's change of views in regard to the foreigners—as made to catch votes. The hollowness of Mr. Parker's professions last year is shown in the fact that he is now scattering broadcast throughout this District, under his frank, an abolition document issued from the National Era office, to prove that Gen. Pierce is a rank pro-slavery man. He is now ready to again woo the abolitionists for their votes.

Whether the policy of voting for Mr. Julian for Congress, under these circumstances, was right or wrong, would be entirely useless to discuss now. So far as any difference of opinion existed among Democrats, in regard to that matter, is concerned, they have determined to let "by-gones be by-gones" and that the only strife in this contest, among them, shall be, which shall do the most for the National and State Democratic tickets. Out of the 4,540 votes received by Mr. Julian last year, 3,000 were Democrats, and among them were the oldest and best Democrats in the District. If the Whigs about the Capital calculate, as you state, that the Democrats who voted for him in opposition to Parker, when there was no Democratic candidate, will now go with him, they are foolishly deceiving themselves.

The Democrats, in this District, dislike to see the statement made through the Democratic organ, at the Capital, that their vote will be decreased, when they know it will be largely increased. Such statements are calculated to make a wrong impression where the facts are not known, and discourage the Democrats.

A DEMOCRAT WHO VOTED FOR JULIAN.

WAYNE COUNTY, Aug. 24, 1892.

[For the Daily Indiana State Sentinel.]

LEWISVILLE, HENRY CO., IND., Aug. 21, 1892.  
DEAR SENTINEL:—Friday, the Democracy of old Henry rolled up in convention at least seven hundred of the invincible and tried men of the party. The day was rainy, which prevented many from attending from the distant parts of the county. It was, however, the largest Democratic meeting that ever assembled in the county. The Democrats were hearty and cheerful, and not less and less in the days of gloom. "Aged men" knewed the time, and boys, too.

A beautiful pole of the same old Jackson used, was raised near the Court House. It is 147 feet high, bearing the names of "Pierce and King, and Wright and Willard." Immediately after the pole was up, as many as could crowd into the Court House, assembled.

The Convention was organized by calling Edward Johnson to the Chair, and appointing E. Scoville and A. J. Ice, Vice Presidents; Milton Wyman and J. F. Henry, Secretaries. Suitable resolutions were adopted, and the Convention adjourned to assemble on the 21st of September.

Wm. Crose, Esq., the Elector for the District, addressed the meeting in an able and dignified manner, penetrating the ranks of Whiggery very deep. Eli knows how. We will meet again three days after the Whig Convention.

[For the Daily Indiana State Sentinel.]

KOKOMO, HOWARD CO., IND., August 17, 1892.

TO THE EDITOR OF THE STATE SENTINEL:—Dear Sir:—I have noticed by reading the Journal, a gentleman who has written from Howard, and he says that the Democrats don't know Pierce, but they do know Scott. O yes, they know him so well that they won't vote for him. I have never seen the Democrats as well united in Howard. He says that Mr. McCarthy will get a stronger vote than any Whig has ever got in this county. I should like to know that kind of strong the gentlemen means. He must mean that they must smell strong, because he can't begin to get the Whigs of Howard. They know Jo Wright, and we all know he is right.

The Howard "Wheat" says that they have four pots for Scott out of the Democratic party, but if you ask them who they are, they don't like to tell their names. I must say that I don't know of one single Democrat but what is well satisfied; but I say that there is a disaffection among the Scott Whigs.

The Temperance Question—The Old and the New Law.

Mr. Editor:—In answer to numerous letters and to correct prevalent misapprehensions, I propose furnishing you a brief review of the Old and the New Law on the subject of temperance. But before doing so, allow me to run rapidly over the progress of some of the measures touching the traffic in intoxicating liquors, through the two branches of the last Legislature, in refutation of a charge that the subject did not receive the consideration facts, only, and leave inferences to others.

Impressed with the importance of the subject, and respecting the growing interest in it, manifested throughout the State, at the opening of the late session of the General Assembly, a distinct temperance committee, composed of the most devoted friends of stringent measures in the premises, was constituted in each House. To these committees all petitions and resolutions concerning "temperance" were referred. Near one hundred thousand persons petitioned for temperance laws. Of these, one-eighth were ladies; one-twentieth minors; and about one-fourth prayed for the passage of a law similar to that of Maine. Many of the petitions asked the repeal of all license laws. By reference to the petitions, it will be seen, that in no instance did a majority of the voters of any county in the State ask the passage of a law similar to the "Maine Law."

Not did one-fourth of the voters of the State petition for any law. Some remonstrated against any change. Yet, no topic of legislation occupied so much of the attention of the Legislature. No less than eight bills relating to the liquor traffic were introduced in the Senate, alone. Every petition was presented in its regular order, and referred to the appropriate committee. More time was consumed in discussing the subject, than in any other question of legislation. The most distinguished men in the State participated in the debate. As might be readily anticipated a contrariety of opinions were entertained by Senators and Representatives. That these would be easily reconciled was scarcely to be expected. Some contended for a repeal of all laws upon the subject, and to leave to moral suasion the work of reformation. On the other extreme, were the advocates of the "Maine Law." Four or five propositions, occupying medium ground, were introduced; and two or three received within three votes of a constitutional majority in the Senate. One bill, embodying some of the provisions of the Wisconsin law, but containing others more stringent, would have passed the Senate had it received the entire vote of the ultra friends of temperance. This bill has been "misrepresented" in various sections of the State, by persons who have been misinformed. It was altogether the most stringent bill ever introduced in any Legislature of the State as a general law. Towards the close of the session, the Senate passed a bill similar to the present general law. This bill was lost in the House. A few days afterwards the House passed a bill which was amended in the Senate by striking from the enacting clause and inserting the Senate bill. In this amendment the House refused to concur, and the bill and amendment were referred to a joint committee of free-conference, where they ended their pilgrimage, being tied up upon a disagreement.

The Repealing act had been held over to await any failure on the part of the two Houses to agree upon bills pending, so that the old law upon the same subject might not be repealed. When it became apparent that no law could pass differing materially from the present law on the subject of temperance, the Repealing act was so amended as to continue in force the laws then in force, regulating the vending of spirituous liquors. In some counties the sale of such liquors is prohibited in any quantity less than thirty gallons. These laws are contained in force.

But while no temperance bill, as a separate proposition, passed, several important changes were made in the laws regulating the traffic in spirituous liquors. These changes are to be found in the new misdemeanor act. That the public may be duly posted up in the premises, I give below the old and the new law, so that the changes may be more readily seen and appreciated.

## THE OLD LAW.

In chap. 53, sec. 68, Rev. Statutes of 1843, it is provided, that:

"All tipping houses, or places wherein spirituous or intoxicating liquors are sold without license, to be drunk in about the same, if kept in a disorderly manner, shall be, and they are hereby declared to be common and public nuisances; and all and every person who shall erect, keep, continue, or maintain, any such nuisance, to the annoyance, disturbance, or injury, of all or any part of the citizen: This State, shall, upon conviction thereof, be fined in any sum not less than twenty-five dollars, nor more than one hundred dollars."

## THE NEW LAW.

Sec. 10 of the Misdemeanor Act passed at the late session, is as follows:

"All places wherein spirituous or intoxicating liquors are sold, if kept in a disorderly manner, shall be deemed public nuisances, and every person who shall erect, continue, or maintain, any such nuisance, to the annoyance or injury, of any part of the citizens of this State, shall, upon conviction, be fined for every day the same is so kept, not less than twenty, nor more than one hundred dollars."

## THE DIFFERENCE.

Under the old law, no prosecution could be maintained if the accused had a license. Under the new law he may be convicted regardless of a license. Under the old, he could only be fined not less than \$25, nor more than \$100, up to the time of the commencement of the prosecution. Under the new, he can be fined not less than \$20 for every day he maintains the nuisance.

## THE OLD LAW.

Sec. 95, Chap. 53, R. S. of 1843, provides that—  
"If any person licensed by any law in force at the time to vend spirituous liquors by retail, shall knowingly sell or give any spirituous liquor to any minor under the age of eighteen years, without the consent of his parent or guardian, or shall sell or give any spirituous liquor to any individual, who is at the time in a state of intoxication, every such person so offending shall be fined in any sum not less than two nor more than ten dollars."

## THE NEW LAW.

Sec. 28, of the New Act, provides that—  
"If any person, by himself or agent, shall sell or give away intoxicating liquors to any minor, or to the consent of his parent or guardian, or shall sell or give away any spirituous liquor to any person, at the time in a state of intoxication, he shall be fined not less than five, nor more than fifty dollars; and in such prosecution, when the principal is defendant, the agent may be compelled to testify, or when the agent is prosecuted the principal may be compelled to testify."

## THE DIFFERENCE.

Under the old law, a person, to be amenable to its penalties, must be licensed. The new law makes him liable, whether licensed or not. The old law provides a penalty against giving or selling "spirituous" liquors only, which our Supreme Court have decided does not include wine. Under the new law, the major term "intoxicating" being used, the whole class of liquors, producing drunkenness, is comprehended. The old law fixes the minimum penalty at two, and the maximum at ten dollars. The new law places them at five and fifty dollars. The old law, under a common law rule of evidence, constantly let out a large class of offenders, in consequence of the traffic being carried on by principals and agents indiscriminately. This evil is remedied by the new law.

## THE OLD LAW.

Sec. 110, Chap. 53, R. S. of 1843, provides that—  
"If any person shall interrupt, disturb, or molest any religious society or any member thereof, when met or meeting together for public worship, or shall sell or give away any spirituous liquor at any booth, wagon, or open place within one mile of any collection of a portion of the citizens of this State, convened for the purpose of worship, or shall interrupt, disturb, or molest any collection of the people convened for any lawful purpose, or shall make any contention or disturbance at any public house, court, election, or other lawful public meeting, such person shall, upon conviction thereof, be fined in any sum not exceeding ten dollars nor less than one dollar."

## THE NEW LAW.

Sec. 37 of the New Law provides that—  
"If any person shall disturb any religious society, or any member thereof, when met or meeting together for public worship, or shall sell or give away any spirituous liquor, at any booth, wagon, shed, or open place, or in any building temporarily erected for the purpose of selling therein such liquors, within two miles of any collection of a portion of the citizens of this State, convened for the purpose of worship, or shall interrupt any collection of the people convened for any lawful purpose, such person shall be fined not exceeding fifty nor less than ten dollars, and imprisonment not exceeding thirty days may be added."

## THE DIFFERENCE.

At the session of 1847, another law was passed on

this subject more comprehensive and stringent than the law of 1843. The new law is not materially different, except as to the kind of articles, the sale of which, within the forbidden limits, was prohibited. The new law increases the penalty.

## THE OLD LAW.

Sec. 93, Chap. 53, R. S. of 1843, provides that any person who shall unlawfully vend spirituous liquors by retail, shall be fined not less than two nor more than twenty dollars.

## THE NEW LAW.

Sec. 25 of the New Act provides a penalty not exceeding \$200. It also provides that the agent may be compelled to testify against the principal, and vice versa. In addition to these changes, the following section has for the first time in the history of Indiana legislation, found a place on our statute book:

"Sec. 27. Any person who shall adulterate any wine, spirits, or other intoxicating liquors, which are intended for sale, by the admixture of any deleterious or other substance, or fluid, therewith, and any person who shall sell, or offer for sale, any wine, spirits, or other intoxicating liquors, which shall have been so adulterated as aforesaid, shall, on conviction thereof, be fined in any sum not less than five nor more than fifty dollars."

The new mode of prosecuting persons offending against the foregoing statutes, is conceded, by those who are conversant with its practical operations, to be efficient. In the city of Indianapolis, it has been in successful operation for several years, and I was informed by an ex-Mayor, a gentleman of acknowledged legal learning, that it gave entire satisfaction. Under the New Law, upon the name of any witness, who is presumed to be cognizant of a violation of the law, being furnished, a Justice of the Peace, Judge of the Court of Common Pleas, Clerk of that Court, Circuit or District Prosecuting Attorney, a subpoena is issued for the witness; and, on his appearing in court, if his testimony is sufficient to predicate a prosecution upon it, it is reduced to an affidavit, and a warrant is thereupon issued for the apprehension of the accused, and the trial progresses as under the old law. Thus, in addition to the old mode of filing a voluntary affidavit, a witness may be compelled to make oath in writing of the commission of an offense against the law, and yet, the name of the person preferring the complaint, may remain concealed, if he desires to shrink from responsibility.

JAMES S. HESTER.

LATE FROM HAVANA.—The U. S. mail steamship Crescent City, Lieut. D. D. Porter, Commander, arrived at twelve o'clock last night, from New Orleans, via Havana, (where she remained 21 hours) in 6 days 8 hours from the bar. Running time quickest on record. The Crescent City brings 120 passengers; 40 from Havana.

Great excitement is reported to exist in Havana, and great numbers of the Creoles were daily thrown into prisons that have remained unoccupied for twenty years; the most loathsome dungeons were put in requisition to accommodate those persons who were deemed the most refractory. Proclamations continue to be issued from a quarter that baffles all the ingenuity of the police. A secret press continues to supply these exciting articles and the Government is entirely at fault. The consequence is, that most rigorous measures are instituted on the part of the Government, and many innocent people are made to suffer. Almost every Creole family is under the surveillance of the police; and altogether a very unhappy state of affairs reigns in Havana. The city is shrouded in gloom; yellow fever, cholera, and small pox prevail to a great extent, and almost every ship in the harbor had some cases of the fever. Out of one company of 120 soldiers, 110 had died, and in a chain gang of 109, there died 100. The Government were sending the troops to the country. The sickness was chiefly outside the wall of the city. The Havana papers say nothing about the arrests, and they endeavor to keep it secret.—Journal of Commerce.

AMERICAN WINE.—The cultivation of the grape at the West, chiefly in Ohio, is becoming each year a more important branch of domestic industry. There are about 1,200 acres of grapes in cultivation in the vicinity of Cincinnati, and every year adds to the quantity of bearing vines, and to the number of persons engaged in the business. According to Cist's Advertiser, the aggregate annual manufacture of first quality wine in that State, may be put down at 330,000 bottles, of which 180,000 is sparkling Catawba. One of the largest manufacturers, who has been for some years engaged in Europe in manufacturing wine, pronounces the Catawba grape a finer basis for light wine than any in Germany or France. One firm in Cincinnati will put up this season 30,000 bottles; another, 105,000. The supply of native wines, greatly as it is on the increase, is said to be hardly equal to the increasing demand.

The Post Master General again cautions the public against the use of wax seals on letters which are to cross the Isthmus, as the wax is liable to melt.

GEN. SCOTT'S NATURALIZATION LAW.

An Act supplementary to the acts now in force on the subject of a uniform rule of naturalization.

SEC. 1. Be it enacted, etc., That any alien, being a free white person, and who shall come into the United States six months or later after the passage of this act, may be admitted to become a citizen thereof after a residence therein of at least three years, and one year at least after declaring his bona fide intention of becoming a citizen, in the manner and form, and upon the other conditions not herein altered, as prescribed by the act entitled "An act to establish a uniform rule of naturalization, and to repeal the acts heretofore passed on that subject," which was approved April 14, 1802.

Provided, That no alien arriving in the United States after six months from the passage of this act, shall ever acquire the right to vote, except in the manner herein prescribed for any elector of President or Vice President of the United States; for any member of the House of Representatives of the same; for any Governor, Lieutenant Governor, member of the Legislature, Judge of any Court of record, or Sheriff, in any State or Territory of the United States, or for any Mayor, Intendant, President, Alderman, Assistant Alderman, or common Councilman of any city, borough, or incorporated town or village, in any of the said States or Territories, or within the District of Columbia; but all aliens admitted to naturalization under the foregoing provisions and limitations shall enjoy every other right and privilege of native born citizens, which is not expressly limited or withheld by the constitution of the United States.

SEC. 2. And be it further enacted, That every naturalized citizen, as aforesaid, shall be wholly exempted or excused from involuntary service in the militia, army, or navy of the United States.

SEC. 3. And be it further enacted, That every free white alien, being a male bodied male of at least seventeen years of age, who shall, in time of war, engage to serve the United States against their enemies, for at least two years, or during the war, or who, in time of actual war, shall serve the said States faithfully two years, or to the end of the war, in any company or vessel of war, in the army or navy of the said States, shall, upon obtaining the certificate or certificates of faithful service, signed by the commanding officer or officers of such company or companies, vessel or vessels of war, and countersigned by the next higher officer in the army or navy, under whom, if any, such alien has served, shall be admitted to present such evidence to any court designated in the act heretofore recited, to all the rights and privileges of citizenship at any time conferred by the act, on simply taking the oath of allegiance to the United States, and making the renunciation enjoined in the said act.

SEC. 4. And be it further enacted, That this act shall take effect on and after six months from its passage, when all provisions of former acts, inconsistent with this act, shall be taken and held to be repealed, in respect only to all aliens arriving in the United States after that date.

WE THINK WE ARE LIBERAL ENOUGH.

WHEN, IN PROVIDING FOR AMERICA, WE LEAVE THE DOOR OF ADMISSION OPEN TO THE CHILDREN OF FOREIGNERS, NOW ABROAD, WHO MAY HEREAFTER BE BORN HERE, WITHOUT ALLOWING THEIR FATHERS TO COME AND HELP TO GOVERN US! WE, WHO ALONE HAVE ANY RIGHT TO THINK ON THE SUBJECT, CLAIM THAT WE CAN BEST GOVERN OURSELVES, AND THE BETTER SUCH GOVERNMENT IN THE HEARTS, SO MUCH THE BETTER FOR THE FOREIGNERS WHO MAY HEREAFTER COME AMONG US, AND FOR THEIR AMERICAN-BORN CHILDREN.—Scott's Communication in National Intelligencer, Dec., 1844.

THE ATLANTIC ARRIVED HERE THIS MORNING FROM LIVERPOOL.

There is an increased pressure in the money market in consequence of the fishery question.

The Manchester trade prices are considerably improved. The corn market has been moderate and unchanged. The business doing in wheat will advance it from 2d to 4d. Flour has advanced 6d. Accounts from the English and Irish agricultural districts are unfavorable, particularly for wheat and potatoes. Accounts from the French agricultural districts are also unfavorable.

MONEY MARKET.—Consols range for money and on accounts from 98 1/2 to 99 1/2.

Lard is dull, and the prices have declined. Provisions unchanged. Rice firm, but small business doing.

Napoleon Bonaparte, a son of Jerome, is coming on a temporary mission to Washington.

The Tripoli affairs have been settled—no bombardment.

England assures Austria that she will keep her eye on Kossuth. The Cape affairs are getting desperate.

The fishery question has been discussed by the English press in an amicable feeling.

The London Times attributes the difficulty in the extradition case of Kossuth to Irish votes and the approaching Presidential election.

FROM NEW YORK.

New York, Aug. 22.

The Atlantic arrived here this morning from Liverpool.

FROM BALTIMORE.

Baltimore, Aug. 22.

A rain storm last night. Considerable damage to the railroad to Philadelphia; two heavy embankments were washed away, six and eleven miles from this city; the travel was suspended to-day and will be to-morrow.

A boat goes out to-night, and will run by the way of Frenchtown until repairs are completed.

FROM NEW YORK.

New York, Aug. 23.

Sales 8,000 bbls flour, southern \$4 63, State \$4 56; 12,000 bushels wheat, Ohio white 112, southern 108; 16,500 bushels mixed corn 7 1/2; 150 bbls lard 11 1/2; pork unchanged; beef unaltered; Ohio whisky 24c and wanted.

FROM CINCINNATI.

Cincinnati, Aug. 23, 8 P.M.

The river remains stationary.

Nothing important done in flour, provisions, and whisky since noon; flour is held higher since the foreign news; pig lead advanced to 5c; linseed oil unsettled by the New York news and the Dayton market was cleared on New York account on Saturday at 60; groceries unchanged.

FROM NASHVILLE.

Nashville, Aug. 20.

A personal difficulty occurred this morning between George Zollikofer, of the Standard, and J. L. Marling, editor of the Union, which had its origin in an editorial discussion between the parties. They exchanged four pistol shots, General Z. standing on the pavement, near the postoffice, and Mr. Marling on the opposite side, near the door of the Union office. Gen. Z. received a slight flesh wound in the hand and Marling a severe one in the head, the ball striking the upper part of his cheek-bone and lodging in the cavity. The parties were cool and deliberate, and Mr. Marling shot General Z. after he had been shot in the head. It is thought that Mr. M. will recover.

FROM WASHINGTON.

Washington, Aug. 23.

SENATE.—The civil and diplomatic appropriation bill was debated during the morning hour, when the river and harbor bill was taken up, and various amendments, making appropriations, were adopted. The item making an appropriation of \$200,000 for the Mississippi, Missouri, Arkansas, and Ohio rivers was struck out, and in its stead the act appropriating, for the improvement of the Mississippi, below the rapids, \$90,000; for the Ohio, including the repairs of the dam at Cumberland, \$90,000; and for the Missouri and Arkansas rivers, \$40,000 each. Without coming to a vote on the bill the Senate adjourned.

HOUSE.—The House passed the bill authorizing the soldiers in the late war with Great Britain to surrender their bounty lands, unfit for cultivation, and select others in lieu thereof.

The House next took up in committee the bill making appropriations for the post-office department.

The amount for paying Major Hobbie's expenses in California was debated and adopted, when the committee rose.

The House passed the Senate bill, granting lands to Michigan for railroad purposes, and then adjourned.

Hon. Joseph R. Ingersoll was confirmed minister to England to-day.

FROM ALBANY, N. Y.

Albany, Aug. 23, 8 P.M.

A skiff, containing fifteen or eighteen men, women, and children, upset to-day, and all were drowned but eight or ten. Seven bodies have been recovered.

FROM ERIC, PENN.

Eric, Aug. 22.

The first mate of the Propeller Ogdenburg states that he was on watch at the time of the collision. The only point of importance stated by him was that, after seeing the Atlantic, if she had given the necessary orders a few moments earlier, as might have been done, the collision could have been avoided. He states that the Ogdenburg saved two hundred persons from the wreck and one hundred from the water.

The second mate of the Atlantic stated that he saw the lights of the Propeller about two minutes before the collision, and put the wheel about and was certain that if the pilot of the Propeller had put her helm astarboard at the same time the Atlantic would have cleared her. He also says that the Atlantic was within four miles of the shore, and that she was steered in that direction. He gives, in detail, the events of the disaster.

There is great excitement here, and much indignation against the pilots connected with the steamer Atlantic. At a meeting of the survivors, held to-day, a series of strong resolutions was adopted, condemning the efficiency of the so-called life-preservers and censuring the owners of the steamers for a deficiency of small boats; also, calling on the Government to take prompt action against the two steamers.

Capt. Petter, of the Atlantic still remains in a dangerous condition.

FROM NEW YORK.

New York, August 21.

Yesterday the Spanish consul in this city demanded of Don Domingo de Gerencia, now resident here, that he return forthwith to Cuba, in compliance with a requisition from the Captain General, Gerencia, and that he be exiled from Spain, whence he escaped to this country. Senor Estapance, in whose house, in Havana, powder and bullets were found, is now in New York, having crept in the disguise of a friar and concealed himself in the baggage-room of the Crescent City, until outside of Havana. He states that a conspiracy had been discovered in Havana, which was the conception of a few hot-headed youths, and had no connection with the leader of the main enterprise, to take place simultaneously in various places on the 1st September, the anniversary of the garrote of Lopez. Mass was to be performed on that day by the resident Cubans for the repose of the soul of Lopez and his followers.

Last evening Dr. Uren, of Louisiana, the founder of the Star line, was presented by the Empire Division with a superb badge of the order.

The ship Robert Connor, which took fire at the wharf here last night, is still burning. The main and mizzen masts are gone. The fire is chiefly confined to the aft half of the ship, which is loaded with a valuable cargo for San Francisco.
